Project Overview

Bani Handblocks is a handcrafted ethnic brand with a mission to bring the beauty of Indian handblock art into the homes and wardrobes of conscious buyers. This proposal outlines a comprehensive plan to launch a WordPress-based e-commerce store that reflects the brand's aesthetics and values while offering seamless functionality and high performance.

Our aim is to build an intuitive shopping experience, blending tradition with technology. With ethnic design language, pastel tones, and user-centric navigation, the website will communicate quality, warmth, and trust.

UI/UX Design Approach

- **Visual Language:** Ethnic, minimal, handcrafted charm
- **Color Palette:** Pastel shades aligned with the brand's handmade appeal
- **Typography:** Elegant serif for headings and modern sans-serif for body content
- **Mobile-First Design:** Seamless browsing on all devices
- **Storytelling Sections:** Hero banners, artisan spotlights, and collection narratives
- **Visual Assets:** Use of customer photos, videos, and process imagery

Proposed Product Categories

- **For Everyday Elegance** – Wearable handblock printed garments
- **For Gifting** – Handmade gift sets and accessories

- **Home Accents** – Table linens, cushion covers, runners
- **Festive Specials** – Exclusive festive collections
- **Fabric by Meter** – For DIY and tailors
- **Accessories** – Scarves, bags, clutches
- **Craft Stories** – Shop by technique, region, or artisan

Key Functional Features

- WordPress CMS with WooCommerce
- Custom UI/UX tailored for ethnic appeal
- Payment Gateway Integration (with onboarding support)
- Delivery Partner Integration (Shiprocket or similar)
- WhatsApp Order & Notification Integration
- Quick Login via Google or OTP
- Guest Checkout and Razorpay Express Checkout
- Abandoned Cart Auto Follow-up
- Customer Testimonials Carousel
- Section for YouTube Videos
- Automatic GST-based Tax Calculation
- On-site SEO: title/meta, image alt text, performance optimizations
- Google Asset Integration:
    - Google Analytics 4 (GA4)
    - Google Search Console (GSC)
    - Google Merchant Center (GMC)
    - Google Tag Manager (GTM)

Product & Content Management

- Upload and optimize up to 100 products (titles, descriptions, image editing)
- Photography guidelines for in-house photoshoots
- Integration of brand YouTube content to strengthen narrative

Gratitude Add-ons (Year 1 – Free)

- Domain Registration
- SSL Certificate
- Website Hosting on AWS EC2 Server

Optional Monthly Management

If you would like E-Karigar to continue managing the site post-launch, the following services are offered at: **₹14,000/month + GST** for up to 50 products:

- Product updates (add/edit/delete + image editing)
- Coupon creation
- Promotional & festive banner design and publishing
