This Website Development Agreement ("Agreement") is made and entered into as of 10th June 2025, by and between:
22/7 Enterprise
(Hereinafter referred to as "Client")
Address: Swati Clover, D 1126, Shilaj Rd, Thaltej, Shilaj, Ahmedabad, Gujarat 380054
AND
E-Karigar
(Hereinafter referred to as "Agency")
#3706, Hill Road, Ambala Cantt – 133001, Haryana, India
www.ekarigartech.com | info@ekarigar.com | +91 97291 22060

1. Project Scope

The Agency shall provide website development services for the Client as per the **Scope of Work** outlined in **Annexure I** to this Agreement (attached in full on the following pages).

2. Timeline

- The project is expected to be completed within **45 working days** (tentatively) from the date of receiving the **UI design of the Home Page, Product Category Page, and Product Page** (up to 10 product pages).
- Timeline is subject to timely approvals, provision of images and content by the Client, and may be reasonably extended if there are delays in Client feedback or submission of required material.

3. Commercials

- **Total Project Cost (One-Time Fee):** ₹ 1,10,000 (Rupees One Lakh Ten Thousand only) plus GST @ 18%
- **Annual AWS Server Cost (if procured through Agency):** ₹ 54,000 per year plus GST @ 18%

4. Payment Terms

- 50% advance for website development charges upon signing this Agreement
- 50% balance before website goes live (once User Acceptance Testing is completed)
- 100% advance for server charges (if availed)

5. General Terms & Conditions

5.1 Confidentiality

Both parties agree to keep confidential all non-public information and materials provided during the course of this Agreement.

5.2 Intellectual Property

All intellectual property rights in the website, excluding third-party plugins or software, shall belong to the Client upon full payment.

5.3 Change Requests

Any additional work or changes beyond the Scope of Work (Annexure I) shall be mutually agreed upon in writing and may incur additional costs and timeline extension.

5.4 Support & Maintenance

Agency will provide 3 months of free support post-launch for content updates and bug fixing as per the SOW. Ongoing technical maintenance for the AWS server is included only if hosting is procured through the Agency.

5.5 Limitation of Liability

Agency's liability under this Agreement is limited to the total fees paid. Agency will not be liable for any indirect, incidental, or consequential damages.

5.6 Termination

Either party may terminate this Agreement with 15 days' written notice in case of material breach by the other party, subject to curing such breach. Payments for completed work and any committed third-party costs shall be due upon termination.

5.7 Governing Law

This Agreement shall be governed by the laws of India. Any disputes shall be subject to jurisdiction of courts at Ambala, Haryana.

5.8 Force Majeure

Neither party will be held liable for failure to fulfill obligations due to causes beyond their reasonable control.

5.9 Notices

All notices under this Agreement shall be made in writing and sent to the addresses listed above.

5.10 Entire Agreement

This Agreement, including Annexure I (Scope of Work), represents the entire agreement and supersedes any prior understandings.

6. Acceptance

IN WITNESS WHEREOF, the parties hereto have executed this Agreement as of the date first written above.

For 22/7 Enterprise	**For E-Karigar Tech**

Date:	Date: 11-June-2025

ANNEXURE I: SCOPE OF WORK (SOW)

(*The following SOW is an integral part of this Agreement and outlines all features, deliverables, and exclusions as agreed by both parties.*)

1. Project Overview

22/7 Enterprise, a market leader in manufacturing components for HVAC companies, is seeking a complete redesign of its existing website to improve:

- User experience
- Accessibility
- Multilingual support
- Digital communication capabilities

This initiative will align the website with modern web standards and enhance its global and local digital presence.

2. Scope of Work – Technical Specifications

A. WCAG Accessibility Compliance

- Compliance with WCAG 2.1 Level AA
- Semantic HTML structure with ARIA labels and alt text
- Keyboard navigability and proper contrast ratios

B. Performance Optimization

- Image optimization with lazy loading
- Minification of CSS, JS, and HTML
- CDN readiness, browser caching, and code splitting
- Performance audits via Google Lighthouse and Core Web Vitals
- Heavy images and video files will be served from an AWS S3 Bucket to optimize performance and bandwidth.

C. SEO & Metadata Structuring

- Unique meta titles and descriptions per page/language
- Social Media Tags (Open Graph, Twitter Card, etc.) will be implemented for optimized sharing across major platforms.
- Structured H1–H6 hierarchy
- Schema markup (Organization, Contact, Products)
- Google Search Console and Analytics integration
- Sitemap and robots.txt setup
- Will include on-site SEO optimisation for all pages across the website (One-time activity)
- Google asset submission will be carried out, including submitting the website to Google Search Console, configuring Analytics, and submitting sitemaps for indexing.
- Product & FAQs (Structured Data / Rich Snippet) will be implemented to support rich results in search engines.
- In the blog, FAQ Schema will be used to ensure FAQ snippets display in search results.
- 301 Redirect from old URLs to New URLs (for example: From: 227.com To: 227Enterprise.com) will be managed to preserve SEO value and ensure smooth user transition.

D. Multilingual Support

- Structured subdirectories for each language (e.g., /fr/, /de/)
- Language switcher with same-page redirection
- hreflang implementation for international SEO
- Admin tools to manage translations
- Includes conversion of textual content into up to 6 languages (excluding text in images)
- SEO Meta should be unique & custom for each language; will be added by our side for each language.
- OG Tag will also be unique and custom for each language, and will be added by our side.

E. CMS Integration

- Built on a secure, scalable CMS (e.g., WordPress)
- Role-based admin dashboard
- Blog, inquiry, and language modules
- Easy backend management of banners, forms, and resources
- In blog, the following will be implemented: Table of the content; Inquiry form (on right side); required author bio; social media sharing buttons.

F. Inquiry Forms

- User-friendly, validated forms with CAPTCHA
- Language-specific forms and thank-you pages
- Email alerts and backend inquiry log with export to Excel

- Back-up inquiry will be captured even if the inquiry form is not working.
- Verification via email or text message will be implemented to control spam inquiries.

G. Chat Tool Integration

- Integration of a customizable, modern live chat tool
- Offline fallback and configurable greetings
- Mobile-optimized interface

H. Security Enhancements

- SSL integration and HTTPS enforcement
- Spam protection and secure coding
- CMS and plugin update readiness
- Backup support at deployment

I. Technical Structure

- Clean HTML5 and modern CSS/JS frameworks
- Full browser and device compatibility
- Seamless deployment with zero downtime

3. Add-On Support Post Live

3 Months Free Support for content updates and design calibration based on team feedback.

Includes: updates to content, images, menu items/structure, bug fixing (design update not included)

Free Technical maintenance (subject to procurement of AWS server from us)

4. Hosting Service

AWS EC2 instance dedicated server with dedicated IP
4 CPU
4 GB RAM

5. Deliverables

- Development according to Google & W3C standards
- SEO-ready and multilingual
- Uploading up to 50 products to the website
- Integrated forms and live chat
- Admin dashboard for content/media control
- Language structure for up to 6 languages (text only)
- 3-month post-launch support

- Regular Technical maintenance (if AWS server procured through us)
- In the home page, 3 banners will be added (images to be provided by client and placeholder to be made available in UI design):
- Upcoming Event
- Product Related
- Certification Display

6. What's Not Included

- UI/UX designing
- Premium plugin/tool licensing (e.g., WPML, chat upgrades)
- Translation of image-based text
- Domain charges
- Monthly maintenance/off-page SEO (can be quoted separately)
- Video creation, 3D animation, or content writing (optional)
- Anything that is not mentioned in the proposal
